**Subject:** Fwd: Super Salvage

Hi, could you all please help Jerry with his inquiry since I am on vacation. If we have files, please ask Nicholas, Brenda or Sara Haile from Martha's group to scan any respective reports and send to Jerry who is cc'd on this report. Thanks,

Good Morning Brian,

I was hoping that you could do us a favor. We are working on a case in Washington DC at a facility called Super Salvage. It is a multi-media case and we have already identified problems across several media programs including hazardous waste, water, and SPCC. Information that we have gathered so far indicates that Super Salvage also operates two other facilities in the State of Maryland. These two facilities are as follows:

Super Salvage

130 Skipjack Road

Prince Frederick, Maryland 20678

Super Salvage

44459 St. Andrew Church Road

California, Maryland 20619

I was wondering if you have anything in your files related to either of these two facilities. Also if you have no information, could you give me some contact names for MDE folks in other programs (e.g. water, SPCC, tanks, solid waste) that might have some information regarding these two facilities. I did check our databases, but could not find any information about either of the two facilities. Any information that you could provide would be very much appreciated.

Respectfully

Jerry Crutchley

(410) 305-2780
